

Opternet **USB EXTENDER via UTP cat5e/6**

CE FC UK CA RoHS **OLC-6201U**

UTP cat 5e/6
 USB 1.1:200m
 USB 2.0:full speed:100m

Overview:
 It can extend your USB devices or HUB up to 200m overcoming the typical 5m USB cable limitation. It composes a local transmitter and a remote receiver, which are connected by standard Cat 5 cables. It is largely applied to the computer field in which long distance USB device is used.

Characteristic:

- Using latest international USB transmission technology, more stable.
- Supports USB 1.1 and USB 2.0(full speed) protocol, perfect compatibility.
- Extends computer full speed USB connector up to 100m certain low speed USB devices may work up to 200m.
- No need a driver and easy installation.
- Use a piece of standard cable, and the cost is low.
- Support plug & play for the USB device.
- No power adaptor required, easy installation.
- Low energy consumption.

Caution:

- The device is not waterproof and not to be used outdoors.
- Clean only with dry cloth.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat.
- Refer all servicing to qualified service personnel.
